

WARNING

4TH BAYANIHAN BAKUNAHAN MARCH 10-13, 2022

(DOH CIRCULAR 2022-131*)

Who will be vaccinated?

- All individuals including:
- Senior citizens
- Children ages 5 - 17
- Health and essential workers
- Lower income population

How will it be done?

- House to house
- Suyod activities in the barangay
- Mobile vaccination
- Vaccination teams of 3+ pax
- Deployment of AFP, PNP, BJMP, BFP

Q: Why vaccinate now that Covid19 is becoming endemic, and the majority of people were infected with Omicron despite being vaccinated?

A: To dispose of Covid19 vaccine stocks that are near expiration.

BE INFORMED!

The U.S. FDA has released** the first batch of Pfizer's Covid19 vaccine clinical trials data. It has been discovered that:

- » The possible side effects reach up to **nine (9) pages long.**
- » 42,000 injuries were reported, with **1,223 deaths**
- » For every 100 people vaccinated with Pfizer-BioNTech and experienced side effects, 3 people died (**3% mortality rate**)

THE PHILIPPINES' COVID19 MORTALITY RATE IS AT 1.56%

So why take an injection that is more deadly than the disease it claims to prevent?

DON'T BE FORCED!

You have every **right to refuse** an injection that could be the cause of serious injury or early death.

You have every right to live **free from sickness and injury!**

UPHOLD **R.A. 11525** AND OUR **BILL OF RIGHTS**
UNDER THE PHILIPPINE CONSTITUTION.
